

ANSWER

I N S E R T

Shown with a solid brass door and customized with a forest green paint finish and 8" surround panels.

The Answer is a terrific way to heat a secluded room or small home. It conserves space by mounting flush into your existing masonry or zero clearance fireplace. Yet it still offers advanced features like a five-sided convection chamber to distribute warm air evenly and a single air control for easy regulation of burn and heat output. The Answer's door opening is 2 inches taller than most other small inserts, so you can load it with larger pieces of wood. The Answer has the largest firebox available in a small insert, so it offers longer burn times and gives you more time to enjoy watching the flames between fuel loadings.

Options: Doors, Finish Panels, Convection Fan & Etched Glass

Emissions	Heating Capacity	Heat Output	Maximum Burn Time	Firebox Size	Maximum Log Size	Weight	Construction	Efficiency
3.2 g/Kg Per Hour	Up To 160 Sq. M.	66,800 BTUs/Hr.	8 Hours	.05 Cubic Meters	457 mm	135 Kg	9.5 to 6 mm Steel Plate	61.7%
