

ENDEAVOR

S T O V E

COOKTOP SURFACE

Shown with a charcoal paint finish, optional brass door and legs.

The Endeavor is a beautiful workhorse that unites form and function into an unbeatable heat transfer system. Its classic step-top design features a radiant surface for cooking, and a convection surface for warming. It has the biggest and cleanest-burning firebox of any medium-size stove. The Endeavor also features a taller door opening than any other medium-size stove, allowing you to load bigger pieces of wood and produce longer burn times. In addition, a by-pass damper prevents smoke-backs while starting and reloading. The Endeavor is also approved for mobile home installation (ask your dealer for details).

Options: Doors, Legs, Pedestal, Convection Fan & Etched Glass

Emissions	Heating Capacity	Heat Output	Maximum Burn Time	Firebox Size	Maximum Log Size	Weight	Construction	Efficiency
2.3 g/Kg Per Hour	230 Sq. M.	72,400 BTUs/Hr.	10 Hours	.06 Cubic Meters	495 mm	203 Kg (With Legs)	9.5 to 6 mm Steel Plate	61%
