13	Door Cam	1	250-00598	\$ 27	
14	Screws (8) 8-32 x 1/2" Torx	1	225-20039	\$ 14	

### Replacing the Glass

The glass must not contact the door or glass clips directly. The glass gasket and glass clip gaskets insulate the glass to prevent cracking. Do not over-tighten the glass clips.

Place the door front side down. Insert the glass gasket into the groove along the inside perimeter of the door. Place the glass on top of the gasket and secure with the glass clips.

### Replacing the Door Gasket

The door gasket inserts into the outer groove of the door and is secured with RTV high-temperature 600° silicone. Before installing, remove any residual silicone. Lay the gasket in place (start at the lower left corner) and cut off any excess gasket (do not stretch the gasket. The cement fully cures with heat from the stove. You may need to open and close the door repeatedly to get the gasket to seat fully.

### Replacing the Door Handle

See the illustration above for a component list (see pg. 26 for details on adjusting the door).

## Firebox Parts

ID #	Description	Qty	Part #	\$	Other Detail
1	Baffle Support "S" Bar	1	99900294	\$ 51	
2	Air Tube with Sleeve	1	98900232	\$ 41
